ABOUT ME

I am a passionate mobile app developer with a knack for creating intuitive and user-friendly mobile applications.

WORK EXPERIENCE

PikaDo | June 2025 - Present

Junior React Native Developer

- **Backend & API Integration:** Integrated third-party services by designing and implementing efficient GraphQL queries and mutations within the PikaDo mobile app, improving data fetching performance.
- **Feature Development:** Designed and built the core user interface and frontend logic for the app's interactive questions module, creating an intuitive and responsive user experience.
- **Design System & Reusability:** Architected and built reusable React Native components following Atomic Design principles for the company's Design System Manager (DSM), ensuring UI consistency and developer efficiency.
- **Component Documentation & Review:** Developed an interactive Storybook mobile app enabling visual review, documentation, and testing of DSM components in isolation.
- **Authentication & Security:** Implemented a secure user authentication and authorization flow using AWS Amplify (Cognito), managing user sessions, registration, and secure access.
- **Enhanced app accessibility:** by implementing a voice playback feature that converts all questions and test text to audio, designing the frontend logic to seamlessly integrate with backend audio generation and streaming URLs.
- **Quality Assurance:** Established and maintained UI test automation suites using Appium, increasing test coverage and accelerating release cycles.
- **Agile & Tools:** Experienced in Agile/Scrum methodologies. Daily user of Jira, Confluence, and Slack for project tracking, documentation, and team collaboration.

SKILLS

React.js, React Native, Expo, React native cli ,
Typescript, Git, Github, Expo Router, React
Navigation, Tailwind CSS, Native Wind, Redux
Toolkit, Firebase, amplify, appium, graphql,
HTML 5, CSS 3 , Javascript, OOP

EDUCATION

Fayoum University 2018-2023

Bachelor's of Architecture
